CAPITAL I INDUSTRIES

MOTOR GRADER ATTACHMENT

Gravel Reclaimer

Designed and built by Capital I Industries. Sold by DMC Wear Parts.

Capital I's **patented postless design** gives the operator excellent visibility and lets the reclaimer extend. It attaches to the Capital I wing and saves 25–35% reclaiming gravel.

- **No post**
  Nothing blocks operator visibility in any position. Attaches to the Capital I wing.
- **Gravel savings**
  25–35% savings reclaiming gravel.
- **Working width**
  42" working width.
- **Second pass**
  The extension cylinder lets the operator extend the reclaimer for a second pass.
- **Shapes road slope**
  Capable of shaping the road slope.
- **Stable in carry**
  A preloaded extension arm spring keeps the reclaimer stable in carry position.

The Gravel Reclaimer is designed, patented and manufactured by Capital I Industries, Tisdale, Saskatchewan, Canada. DMC Wear Parts is an independent reseller. Specifications and options are set by the manufacturer and may change; confirm details with your quote.

Gravel Reclaimer Features

MANUFACTURED BY
CAPITAL I INDUSTRIES

25–35%	42IN	32IN
GRAVEL SAVINGS	WORKING WIDTH	FLOAT OVER OBSTACLES

01 Postless design

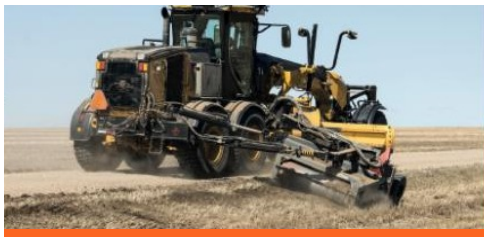

Patented postless design gives excellent operator visibility and lets the reclaimer extend.

All hydraulics are controlled from the cab.

02 Second pass and float

The extension cylinder lets the operator make a second pass.

Loose link assembly lets the reclaimer float over obstacles up to 32".

03 Stable in carry

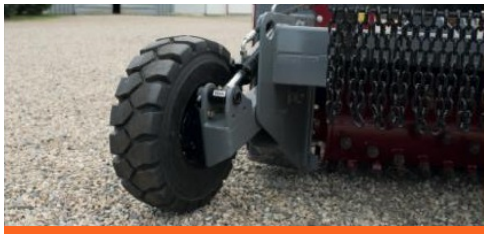

Preloaded extension arm spring keeps the reclaimer stable in carry position.

04 Shared mounts, quick attach

The same mounts serve the wing, mower and gravel reclaimer.

Attaches easily with a quick attach design.

05 Depth control and carbide teeth

Cutting depth adjusts hydraulically from the cab.

Capable of shaping the road shoulder.

Replaceable quick-change carbide teeth.
